

## **Education Committee Policy**

**Authority:** By Member vote and REACO bylaws dated

**Purpose:** A policy to define and support the REACO education committee in order to facilitate in planning and committing to various educational and training opportunities throughout the year. The REACO membership has put their trust in the education committee to seek training opportunities that REACO can support and sponsor. The Committee has a concern that by waiting for the monthly meetings and even longer the committee is restricted at committing REACO to organize training opportunities.

### **Policy:**

REACO relies on the education committee to organize and promote training opportunities for the membership and professionals in the code enforcement field.

The education committee as agent for the membership can commit the organization to training opportunities, without specific membership approval, by;

1. Depositing money up to \$2000 to retain a speaker
2. Sign contracts on behalf of the membership
3. Seek training opportunities and co-sponsors of training opportunities
4. Commit the membership in supporting the training opportunity.
5. Seeking out co-sponsorship for training events
6. Seeking out innovative training
7. To provide training in the REACO chapter counties of Sonoma, Marin, Mendocino and Lake Counties
8. To commit to cosponsor a training function only within the northern California areas of Napa, Solano, Contra Costa, Alameda, San Francisco, San Mateo, San Jauquin, Sacramento, Yolo, Sutter, Glenn, Colusa, Trinity, Tehama and Humboldt.

The education committee is to report to the membership monthly for ratification of the education committees decisions and for the approval of any further decisions that would need to be made.

Any Education Committee actions that are beyond this policy must be approved by the general Membership.

### **Restrictions:**

The Education committee is restricted only to seek out training that is directly related to REACO mission statement.

Membership approved on \_\_\_\_\_ of \_\_\_\_\_ in the year \_\_\_\_\_
